What do we do?

ABOUT THE MEETUP

www.audiologiks.com

Try exchanging language with another member, or participate in a mock interview

Listen to the Audio

Agenda for Today's Meetup

Discuss a little about mine and everyone's background

I've been in Tokyo for about 22 years, but was in Kyoto for 3 years before that. Working in IT, and interested in talking about job searches, building one's career path and learning new skills to go forward. I am bilingual but have to practice to keep my Japanese at a certain level, and like learning about IT.

About the Meetup

We're about sharing tips on looking for a job, getting a better job or learning new skills to advance in your current job. The meetup has been around for about 18 months, has 202 members and about 34 active members. About 30-50 people attend annually.

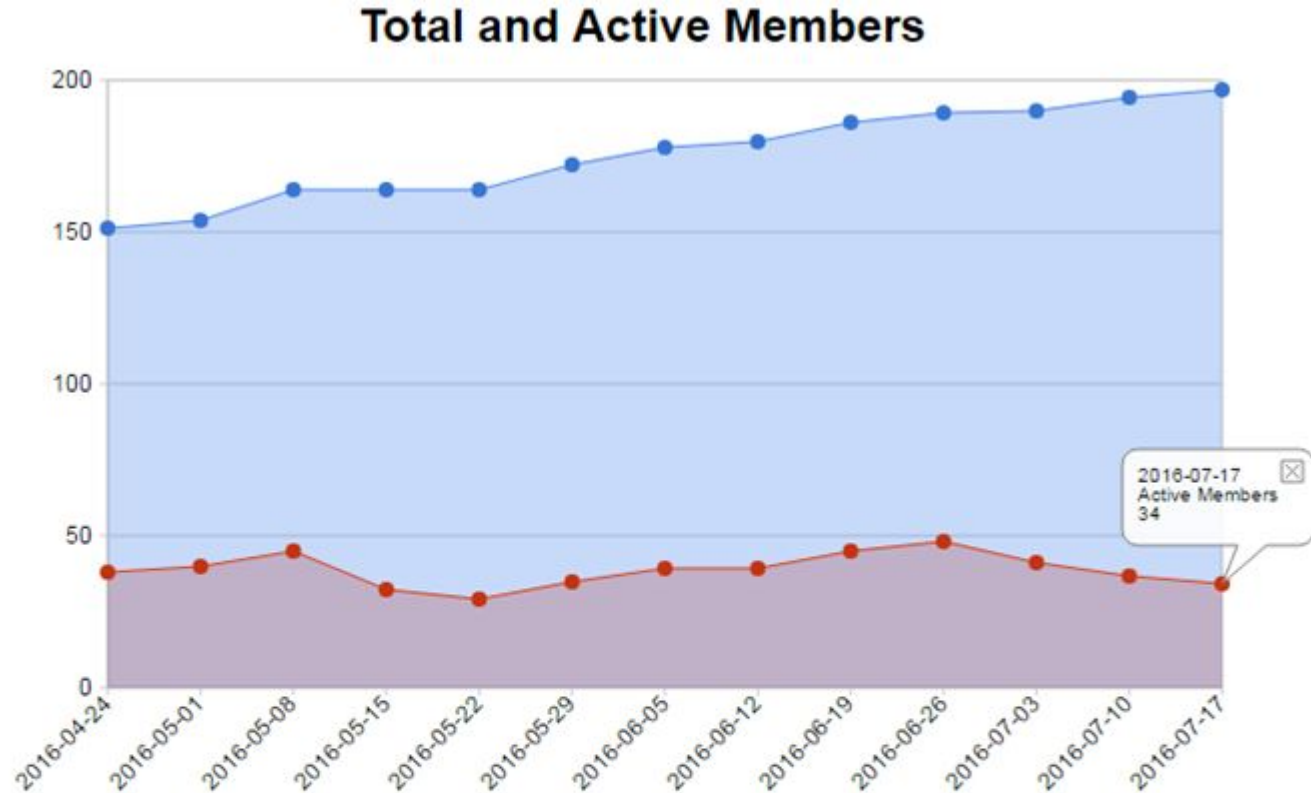

Total and Active Members
